ABOUT ME

I'm a Frontend developer who loves to develop projects that can make people's life easier and more comfortable, integrating design and user experience. My focus is on the Front-End, where I find the connection between the art of design and code. I value the expertise of writing semantic and clean code using the newest technologies. I use Php and Mysql for the back-end.

EDUCATION

- 2012 ➔ 2015 Fatec University - Mogi Mirim unit, Brazil
Technical Degree in Analysis and Systems Development
- 2010 ➔ 2011 Cegep Technical College - Mogi Guaçu, Brazil
